## **DETAILED ACTION**

Claims 8-11 and 13 are pending in the application.

This action is in response to applicant's amendment filed October 20, 2005.

Claims 8, 11 and 13 have been amended and claim 15 has been canceled.

## Response to Amendment

The applicant's amendments filed October 20, 2005 have been fully considered with the following effect:

- 1. The applicants amendments and arguments are sufficient to overcome the 35 U.S.C. § 112, first paragraph rejection labeled paragraph 1) maintained in the last office action, which is hereby withdrawn.
- 2. The applicants amendments and arguments are sufficient to overcome the 35 U.S.C. § 112, second paragraph rejection labeled paragraph 2g) maintained in the last office action, which is hereby **withdrawn**.
- 3. With regards to the provisional obviousness-type double patenting rejection as being unpatentable over copending Application No. 10/363,070 of the last office action, the applicants requested that this rejection be held in abeyance at this time.

Claims 8-11 and 13 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of copending Application No. 10/363,070, for reasons of record.

4. The applicants amendments and arguments are sufficient to overcome the 35 U.S.C. § 112, first paragraph rejection labeled 8b), 8c) and 8d) in the last office action,

which are hereby **withdrawn**. However, with regards to the 35 U.S.C. § 112, first paragraph rejection of claims 8, 10, 11, 13 and 15 in the last office action labeled paragraph 8a), the applicant's arguments have been fully considered, however they were not found persuasive. The applicant's stated that the structures are supported by Applicants' specification at, for example, page 15, line 1 and claim 8 as originally filed. However, the example on page 15, line 1 (last structure in the line) is

which contains a –CH<sub>2</sub>- linker at the 1-position of the isoquinoline ring of which neither of the moieties in line 2 on page 9 of the amendment possess.

Claims 8, 10, 11 and 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention, for reasons of record and stated above.

5. The applicants amendments and arguments are sufficient to overcome the 35 U.S.C. § 112, second paragraph rejection labeled paragraph 9) in the last office action, which is hereby **withdrawn**.
